

Raised Bed Garden Planting Layout

Follow the layouts below for any raised bed garden you construct. Limit the number of species you have, plant them in groups, add a divider between species, and place a Plant ID Sign in each section.

3-Sided Raised Bed Garden Layout

This garden's planting space will be 3' wide and the length should be planned in 3'1" long sections. Each section should have four plants of one species.

4-Sided Raised Bed Garden Layout

This garden's planting space will be 3'4" wide and the length should be planned in 3'1" long sections. Each section should have five plants of one species.
